Profile

Driven to learn quickly, advance computer proficiency and training in industry operations. Solid background in field and office settings supporting team needs. Flexible and hardworking team player focused on boosting productivity and performance with conscientious and detail-oriented approaches.

Education

02/2018 - 01/2023

Bachelor's Degree of Computer Science
Yarmouk University
Graduation project was on "Class Attendance using Face Recognition", through the help of my fellow teammates we used Python and Android programming language.

Employment

03/2023 - Present

Communication and Security System Engineer
Traffic Tech (Gulf) W.L.L., Doha, Qatar
- Leader of the team responsible for overseeing a wide range of communications activities such as the installation, configuration and adjusting of high level street cameras.
- Performing network maintenance and system upgrades including service packs, patches, hot fixes and security configurations.
- Responsible for operation maintenance of CP22 and CP23 projects.
- Responsible for doing smart city cp23b2 project video analytics.

09/2022 - 11/2022

Intern
Traffic Tech (Gulf) W.L.L., Doha, Qatar
- Trained at the software, network and communication department.
- Attended a lecture about Sydney Coordinated Adaptive Traffic System (SCATS).

06/2020 - 12/2020

IT Technician
ITune Mobile Shop, Amman, Jordan
- Responsible for maintaining and repairing of hardware components of computers and mobile phones.

Certificates

02/2023

Cisco Certified Network Associate (CCNA)
This certificate validates my knowledge on Multi-Tasking fundamental networking concepts.
This certifies my ability to install, set up, configure, troubleshoot and operate a medium- sized routed and switched computer network. This also includes implementing and verifying Android connections to a wide area network (WAN).
